

PRIVATE PILOT GROUND SCHOOL INSTRUCTOR

Walter Josephson is one of our recent Private Pilot Ground School Instructors. He completed ground school at Bergstrom in the summer of 2010, and earned his Private Pilot License in December of 2011. He became interested in teaching ground school and asked to join the team in November 2010, and quickly went on to pass his Fundamentals of Instruction and Advanced Ground Instructor knowledge exams. After flying to Felts Field just to pick up his AGI ticket, he began teaching in January 2011. Soon Mr. Josephson will have his instrument rating, which he is currently working on.

Mr. Josephson has a BS in Physics, and spent 11 years in the Navy driving nuclear submarines. He has been working at Hanford as a nuclear engineer for the last 20 years.

Mr. Josephson says: “I wanted to teach Ground School because I enjoy teaching, as well as to help grow General Aviation and to stay current with the rules and regulations. Just a few years ago I was on the other side of the desk, and remember what it was like to be a Ground School student.”
