NOW HIRING:

Airframe and Powerplant Mechanic

Our modern maintenance facility can house up to eight aircraft at a time. Our mechanics work on everything from Piper Cubs to Airbus 320s, and get the best opportunity to learn and master a great variety of skills including piston, turbine, jet maintenance from our nationally recognized Director of Maintenance, Jack Vazquez and Turbine Maintenance Manager, David Muth.

Responsibilities Include:

- Service and maintain aircraft
- Adjust, align, and calibrate aircraft systems using hand tools, power tools, gauges, and test equipment
- Examine and inspect engines and other components for cracks, breaks, or leaks
- Disassemble and inspect parts for wear, warping, or other defects
- Assemble and install electrical, plumbing, mechanical, hydraulic, and structural components and accessories
- Perform tasks such as oil changes, annual inspections, phase inspections, and sheet metal work
- Repair, replace, and rebuild aircraft structures, functional components, and parts, such as wings and fuselage, rigging, and hydraulic units
- Test engine and system operations
- Work in maintenance hangars or on the ramp
- Work indoors or outdoors regardless of weather conditions
- Work on-call shifts

Qualified Applicant Requirements:

- Hold a valid Airframe and Powerplant license
- Minimum of three years A&P experience
- Must pass background check and pre-employment DOT drug test
- IA preferred, but not required
- Hold a valid driver's license
- Detail and safety oriented
- High level of written and verbal communication skills
- Superior customer service skills
